

CDLH Testimonials from our satisfied and happy customers

Renee & Larry

Words cannot express how much we enjoy living in our Cedar Direct log home. There is truly nothing like it! At the end of a hard days work, there is nothing more rewarding and relaxing then arriving home to our "little piece of heaven". The look, the feel, and the smell of the white cedar is what makes us feel like we are at our own private retreat everyday. It is true you can feel like your on vacation everyday!

Like most people, we did our research and considered other log home manufacturers, but not one was able to provide us with the confidence, guidance and comfort that Cedar Direct Log Homes did. If we had to do all over again, there is not one thing that we would change. It's crazy how making the right decision has impacted our lives everyday and imprinted us with an amazing experience.

We would not build our dream home with just anyone, so we refused to settle until we found just the right Company, in this case "Family". Family is better then a company in any scenario and we could not be happier nor more grateful than to be a part of the Cedar Direct family. They helped make our dream a reality.

Jerry and Carol

Constructing a new home under the best of circumstances can be a stressful adventure; constructing one from afar would seem to only add to the intimidation. That was the dilemma we faced when we considered building a log home several hundred miles from our primary residence. Cedar Direct and especially Paul & Lynda, appealed to us because of their willingness to locate and help us negotiate with local contractors from the initial site preparation to the final finishing work. Throughout the construction process our visits were quite infrequent, but we were reassured through regular communications with Cedar Direct that each stage was being coordinated and supervised with the attention to detail and quality that we would expect.

We found them always to be quickly accessible, responsive, and intent on gaining our satisfaction. We were impressed with their help and follow-through long after the initial negotiations. And now, nearly 7 years after we built our log home retreat, we continue to be even more impressed by their availability and sincere interest in helping us with any questions we might have.

Perhaps the most meaningful appraisal of our experience might be to ask, "If you could do it over again, would you choose Cedar Direct?" Our answer: a resounding "Yes!"

Christine

I have to tell you that we are just so excited as we see progress every week on our Cedar Direct log home. I can not express how grateful I am to have this whole building experience with you and all of your family. Wow! Everyone, and I mean everyone, that I deal with as this has progressed has nothing but the best to say about your family and Cedar Direct. All of the different trades to companies, they all give you the highest regards. I would love to represent Cedar Direct in Somerset County! Anytime you need to use my house to show someone or if I can be a reference for you, I would love to do so.

I would also like to tell anyone considering this process that it can be done and it can be done economically! I am amazed at how much you can save if you know what you are doing and with the help of Cedar Direct . -

Christine

Tamy & Kevin & Family

It has been almost 10 months since we broke ground and we are finally ready to move into our log home. We are very excited to live in our home and as

each phase was completed, our log home took on a character of itself and became a part of us-it will be a part of our future and our history.

Cedar Direct Log Homes is a family business and each person showed a special interest in the construction of our log home; from designing a custom home, to preparation of the site, to the delivery of the log package, to the finishing touches such as staining the exterior or landscaping. Each member of the Cedar Direct Team was available at all times for advice and support. They would either call us or visit the site weekly to observe the construction and handle any concerns that we had.

Cedar Direct provides a log of high quality cedar along with subcontractors that were dependable, knowledgeable, professional and honest individuals. Everyone made being our own General Contractor too easy!
